Angela Andronova

Technical Writer

📞 +90 545 188 2439 @ exebeeche@icloud.com 🔗 https://github.com/exebeeche 📍 Turkey, Antalya

SUMMARY

Highly organized and proactive Technical Writer with 15+ years of experience crafting end-user and developer documentation. Dedicated and passionate about technical writing using the Docs-as-Code approach and DocOps tools. Excellent ability with editing, reviewing, and adjusting content based on user feedback.

EXPERIENCE

Technical Writer

Status.im   📅 06/2022 - 09/2022   📍 Remote

Status.im is a mobile Ethereum OS that gives users the power to chat, transact, and access a world of DApps on the decentralized web

- Contributed to the user documentation repo
- Took part in software testing
- Planned the content structure
- Stack: Mkdocs Material&Markdown

Team Lead

Arenadata Software   📅 07/2021 - 06/2022   📍 Remote

Arenadata creates a single enterprise data platform using open source solutions such as Apache Hadoop, Greenplum, Apache Kafka, ClickHouse, PostgreSQL

- Led and managed a team of up to 6 technical writers
- Wrote, together with my team, 100% of the new technical content for the company's Apache Hadoop-based product in 4 months
- Built a content architecture and managed design works for the documentation portal
- Stack: Antora&Asciidoc

Technical Writer

SberDevices   📅 10/2020 - 07/2021   📍 Remote

SberDevices focuses on smart devices and everything about it like speech technologies, face and voice biometrics, neural networks, and more

- Created developer guides (API/SDK) for a speech recognition service
- Participated in work for developer site layout using Strapi CMS
- Researched and developed a concept description of a voice biometrics service
- Stack: Gatsby&Markdown

Technical Writer

Waves Enterprise   📅 04/2019 - 10/2020   📍 Remote

Waves Enterprise develops and supports a hybrid blockchain that combines both private and public permissioned blockchain technologies

- Developed end-user product documentation in an agile environment while meeting 100% of team deadlines
- Actualized and supported docs, writing to publishing, on a company's website
- Increased the user documentation library by 50%
- Stack: sphinx&rST

EDUCATION

Master's Degree - Space Geodesy

Moscow State University of Geodesy and Cartography

📅 1999 - 2004   📍 Moscow

SKILLS

Doc tools

Docusaurus   API/SDK docs   Markdown

DITA/DocBook   VSCode/IntelliJ IDE

Read The Docs   HTML/CSS/JavaScript

Management and internal tools

Confluence   Jira   Notion

Slack/Discord   GitHub/GitLab

Infrastructure & Operations

Jenkins   Docker   AWS VM   Console

Basic proficiency

Blockchain   Apache Hadoop   Spark

Figma   Scala   SQL   Swagger

ACHIEVEMENTS

💎 **Arenadata, documentation portal**
The portal was built in 4 months using the Antora&ASCIIDoc stack. My team and I have planned all content architecture, design elements and navigation.

💎 **Arenadata, Yadro, Building TW team**
I built a TW team 2 times in the last 5 years. I was responsible for hiring and establishing all processes.

CONFERENCES

✔ **DITA-OT Day Conference**
November 4, 2018, Rotterdam, Netherlands
A conference dedicated to the DITA Open Toolkit project

✔ **Write the Docs Conference**
October 3-4, 2021, Online
The conference focused on all topics related to software documentation
